### *Delkin's Slug and Snail Destroyer*

Unbelievable is the manner in which this substance attracts and destroys these most difficult pests. Absolutely harmless to larger animals, this substance is sure death to slugs and snails. They are lured from their hiding place and are found dead wherever piles of the substances have been placed around on the ground.

A small quantity goes a long way. A pound of the Destroyer will clean out an average size greenhouse.

ACIDANTHERA MURIELAE

Abyssinian Sword Lily (See Front Cover)

A new introduction to the world of cultivated flowers. A real find from Western Abyssinia. It grows from bulbs or corms which form numerous bulblets or cormels. As easily grown as the gladiolus, it is similarly planted and harvested. It flowers from mid-August to September. It has tall rigid stems, 4 feet or higher, with very sweetly scented flowers. Petals are pure glistening white with a purplish maroon blotch at their base. An excellent cut flower. Orders will be filled in turn as received until our stock is exhausted.

\$60.00 per 100

## BULBOUS IRIS

As a cut flower, the Bulbous Iris has taken its place as one of the most popular and profitable items for the greenhouse. The flowers are phenomenal keepers and shippers, blooming at a time of year when flowers are in demand at good prices.

Under glass, the Tingtana Hybrids may be brought into flower during December and January, the Dutch during February and March or as late as April.

For a continuation of blooms during the latter part of April, May, and June, the Dutch and English may be planted in cold frames or outside.

For early forcing we recommend top size bulbs. For slower inside growing second size bulbs may be used. The smallest size bulb is suitable for cold frame or outside growing and, because of the low price, growers should find these very profitable.

NEW INTRODUCTIONS

In recent years there have been created some sensational new varieties of Dutch Iris which far surpass the older kinds in size, beauty of form and richness of coloring. Consequently, we have discarded all the older kinds which have been superceded and are offering these marvelous new creations. As this is the first year that most of these varieties have been grown in this country, we can offer only large top size mother bulbs, this season.

LEUCOCORYNE IXIOIDES ODORATA

(Glory of the Sun)

A wonderful new long-keeping cut flower of exquisite beauty and fragrance. A bright blue flower blooming in the early months of the year when blue flowers are most in demand. It grows from a small bulb and sends up a wiry 18-inch stem.

Per 1600.....\$65.00

LILIES

The finest lily bulbs in the world are grown here in the Pacific Northwest where soil, climatic conditions and scientific care produces a healthier and finer bulb than is grown elsewhere in this country or abroad. As a healthy bulb is everything in the culture of lilies, bear this fact in mind while buying. We guarantee our bulbs to be of the highest quality.

CROFT EASTER LILY

The trade has come to recognize this as the finest Easter Lily. The blooms have enormous size and substance, the foliage is dark green and healthy, the stem is short, making it an ideal pot plant. Following proper cultural instructions this is as easy an Easter Lily to force as any and will give as satisfactory a bud count.

We are growing one of the healthiest and cleanest stocks in the Pacific Northwest and can supply bulbs in large quantities in all sizes for both outdoor propagation and greenhouse forcing. Write in for quotations, which will follow market prices, when set.

Lilium Regale. We specialize in this wonderful lily and can supply large quantities in all sizes, especially the big sizes which make such spectacular displays in the garden because of the great number of flowers which they develop on a single stem.
